

Neval Babu

Portuguese Citizen | Leicester | 07459875933 | Neval271@gmail.com | Portfolio: <https://neval-babu-portfolio.netlify.app>

SKILLS

Python, Java, C++, JavaScript, HTML, CSS, REST APIs, Spring MVC, Postman, Swagger, Android Studio, SQL, Git, Agile, SDLC, Shell Scripting

EDUCATION

BSc (Hons) Computer Science | University of Leicester | First Class Honours (76+ %) | 2021–2025

PROJECTS

IBM SkillsBuild Companion App

- Developed a gamified web application for IBM SkillsBuild within an 8-member team to create a more engaging learning experience
- Built backend services using Java and Spring Boot, implementing REST APIs to handle business logic and application functionality
- Configured a MySQL relational database for secure data storage and structured user management
- Led the Agile development process as Scrum Master, coordinating sprint activities and team progress to ensure project milestones were met
- Utilised GitLab for version control and collaboration, supporting efficient teamwork and maintaining code consistency

University Timetable Management System

- Developed a timetable management system using Java, Spring MVC, and REST APIs to manage modules, sessions, and convenor data
- Utilised Swagger/OpenAPI and Postman for API documentation, testing, and validation of backend functionality
- Built an Android application using Android Studio, Java, and RecyclerView to support timetable management through an intuitive user interface

Private Cloud Whiteboard

- Distributed a shared, interactive whiteboard application across multiple Microsoft Azure App Service nodes
- Achieved persistent, low-latency connections by integrating Azure Web PubSub for WebSocket communication and Redis Cache for state synchronisation and rapid data retrieval
- Applied Docker containers to simplify horizontal scaling, allowing quick instance deployment during peak demand

Scrabble Game

- Developed an interactive Scrabble game using Python and Pygame, supporting both player-versus-player and player-versus-computer gameplay modes
- Applied object-oriented programming principles to design and manage core components including players, tiles, boards, and gameplay interactions
- Integrated DAWG-based word validation to efficiently verify word entries and maintain accurate gameplay functionality
- Implemented custom scoring and game logic systems to create a responsive experience and improve overall gameplay interaction

Discover Flavour Web Application

- Developed an interactive food discovery web application using HTML5, CSS3, and JavaScript to provide a responsive and engaging user experience
 - Implemented DOM manipulation and dynamic client-side functionality to support interactive features and improve user navigation
 - Applied form validation techniques to enhance data accuracy and create a more user-friendly experience
-

WORK EXPERIENCE

Amazon Warehouse Associate | June 2021 – Present

- Processed and organised shipments with accurate sorting, packing, and labelling to ensure efficient order fulfilment and workflow operations
- Applied strong attention to detail and adaptability to maintain quality in a fast-paced working environment
- Collaborated effectively with team members to support daily productivity targets and operational efficiency
